Dear Dr. DeStefano-Anen:

It is with great sadness that I must inform you that the Lakewood School District is unable to provide its students with a “thorough and efficient” education required by the New Jersey State Constitution. The level of education that will be offered to the students of the Lakewood School District in the 2017-2018 school year, is in my professional opinion, tragically inadequate and inferior compared to the education offered to those students in wealthier towns in Ocean County and across the state.

The District must deal with a number of new expenditures and significantly less revenue, such as, but not limited to, the following;

- The absence of a \$5.6 million State Aid Advance/Revenue
- Repayment installment for the above advance
- Repayment of significant federal and state audit refunds which had been deferred in past years **\$1,099,531**
- The tuition for a newly approved charter school **\$2,128,493**
- The consortium’s busing cost for the increase in mandated nonpublic school students despite flat funding in State Transportation Aid and overall State Aid for the District. **\$1,895,728**
- Increase in Health Benefits **\$2,821,605**
- Increase in Salaries **\$2,561,333**
- Increase in Tuition **\$525,357**
- Increase to School Base Budget to Title 1 Reduction **\$735, 045**
- Transportation Less Salaries and LSTA **\$686,793**
- Net Changes to the Balance of the Budget **\$10,692**

In order to cover the above, the Lakewood School District will be losing approximately 119 members of its certified teaching staff, creating average class sizes of 50 (K-12). Students throughout the district will no longer have the opportunity to participate in sports programs or after-school clubs and activities.

Summer Bridge programs that have helped our students' transition from Elementary School to Middle School and from Middle School to High School will be eliminated. Lakewood High School's summer school program will be abolished, leaving disadvantaged students unable to make -up course credits, in order to obtain their high school diploma.

In a district with few administrators, and close to 50 students in a class, there will no longer be guidance counselors in the Elementary Schools to assist those students who struggle with behavioral and emotional problems associated with children being raised in poverty. Research shows that poverty in childhood and adolescence is associated with a higher risk for poor cognitive and academic outcomes, lower school attendance, lower reading and math test scores, increased distractibility, and higher rates of grade failure and early high school dropout.

Lakewood School District's Response-to-Intervention Program, (K-2 students) which has greatly improved the reading foundational skills for our struggling students, has been eliminated, along with all of the district's Media Specialists, who have over the last few years enhanced our Content Area and Technology curricula. Mathematics and Literacy Coaching positions have been abolished, leaving our teachers with limited access to professional development and support. As if the staffing issues are not enough, teachers and students will also have to grapple with having to do more with less, as \$500,000 in educational supplies was also cut from the budget.

In my opinion, this level of education does not meet minimum adequacy standards by any means. How can the students of Lakewood be expected to compete in the labor market, with students who have had educational opportunities that have prepared them for the world around them?

Lakewood is clearly a district in which poverty, poor housing, poor nutrition and other conditions affect the educational performance of its students. In fact, the Asbury Park Press published an article; *Schools unaware of lead-poisoned kids* on February 28, 2015, which stated that over 100 children in Lakewood, who were recently tested (at that time), under the age of 6 were detected to have elevated lead levels – the highest in Ocean County.

Although I recognize that no amount of money may be able to reduce the negative socioeconomic factors that cause student disadvantages, one must recognize that a sufficient base budget is needed to provide students with a thorough and efficient education.

The students of the Lakewood School District deserve to maintain the education they have had the past five years. The progress has been steady, and the graduation rate has increased from 69% to 75.3% in 2016. The climate and culture in all of the schools has steadily improved, and Piner Pride in Lakewood has returned!

The 2017-2018 school budget not only promises to decimate the Lakewood School District, it promises to destroy the lives and future of its students. It is imperative that the students of Lakewood are provided with a thorough and efficient education that gives them a fighting chance!

I am hereby requesting that the state fully fund the district in order to have an adequate base budget, and avoid violating the Constitution by not offering students a thorough and efficient education

*I feel it is important to note that courtesy busing is **not** part of the 2017-2018 Lakewood School District budget.

If you would like to discuss this very important matter further, please feel free to call me at 732-905-3633. In the meantime, I cannot certify a budget that does not offer the students of the Lakewood School District a thorough and efficient education.

Dear Dr. Flora:

It is with great sadness that I must inform you that the Lakewood School District is unable to provide its students with a "thorough and efficient" education required by the New Jersey State Constitution. The level of education that will be offered to the students of the Lakewood School District in the 2016-2017 school year, is in my professional opinion, tragically inadequate and inferior compared to the education offered to those students in wealthier towns in Ocean County and across the state.

The Lakewood School District will be losing 68 members of its certified teaching staff, creating average class sizes of 38-39 students (K-12). Middle School students will no longer have the opportunity to participate in after-school clubs/activities and sports programs. High School students may participate in after-school clubs/activities and sports programs; however, they will be severely limited, as all late buses have been canceled for next year. Many students do not have the means to be transported from school to home and therefore, will not participate in these programs. In my opinion, this level of education does not meet minimum adequacy standards by any means. How can the students of Lakewood be expected to compete in the labor market, with students who have had educational opportunities that have prepared them for the world around them?

In a district with so few administrators, and close to 40 students in a class, there will be 3 less guidance counselors and 3 less administrators to assist students and teachers with the day-to-day operations of a school, never mind a special needs district. Staff members and students will also have to grapple with having to do more with less, as \$200,000 in educational supplies was also cut from the budget.

The district has proposed 8 referendum questions for the November ballot (attached). While the statute for separate proposals requires that the proposals state, "These proposed additional expenditures are in addition to those necessary to achieve the Core Curriculum Content Standards," it is my professional opinion that these expenditures are in fact **necessary to achieve the Core Curriculum Content Standards, as the base budget is not sufficient to provide a thorough and efficient education as required by the New Jersey Constitution.**
